

Randalls/Tom Thumb and Reef Stewardship Foundation Team Up to Fight Coral Reef Decline

We are happy to announce we have partnered with Randalls grocery stores Good Neighbor program. This program also works with the Tom Thumb grocery store discount card as well. If you are willing to spend a few minutes in your local Randalls store one time, you can donate 1% of your purchases every year to the Reef Stewardship Foundation. **It doesn't cost you a penny, only takes 3-5 minutes, and if enough people sign up then we can get a significant source of income to fund our RSF programs.**

Steps to Activate Your Account for RSF Donations:

1. Apply for a Randalls Remarkable card (most people that shop Randalls regularly have already done this step).
2. Go to the customer service desk and ask for an application to link your Randalls Remarkable card to the Good Neighbor program for the Reef Stewardship Foundation. Fill out the application and be sure to include our

account number: 11969

and, if they ask, our name Reef Stewardship Foundation.

3. Thats it! Every time you present your remarkable card before purchasing groceries, 1% of your purchase will be automatically added to our account.

We will be announcing other partnerships soon. If anyone knows of other companies that allow a percentage of the purchase to be donated to 501(c)(3) charities in this area, please let me know and I will be happy to sign up.

All proceeds will go towards our aquaculture, education, or research program areas designed to help fight coral reef decline.
